Specification Summary

Brand	Asec
Product type	Combination

Product Description

The Asec Open Shackle Combination Padlock is a robust, keyless security solution designed for everyday convenience. Featuring a high-quality zinc body with a tough, corrosion-resistant black coating, this padlock is built to withstand the elements, making it ideal for securing gates, sheds, lockers, or toolboxes.

Its open shackle is constructed from hardened steel, offering strong resistance against cutting and sawing attacks. The padlock operates on a 4-wheel combination mechanism, providing up to 10,000 possible user-resettable codes. The high-precision, clear dialling wheels make it incredibly easy to set, read, and reset your combination whenever required. This versatile padlock is also highly compatible with security cables and chains, offering flexible protection for a wide range of applications.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10497
- **Body Width:** 55mm
- **Body Height:** 53mm
- **Body Finish:** Black
- **Shackle Diameter:** 8mm
- **Shackle Finish:** Hardened Steel
- **Horizontal Clearance:** 23mm
- **Vertical Clearance:** 33mm
- **Mechanism:** 4-Wheel Combination
- **Weight:** 230g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
