## Product Description

The Asec Open Shackle Padlock with Removable Cylinder offers a highly versatile and secure locking solution, making it ideal for integration into master key suites. Built with a robust 26.5mm thick chrome-plated brass body and a 10mm stainless steel shackle, this padlock is designed to withstand both physical attacks and harsh outdoor environments.

The standout feature of this padlock is its replaceable cylinder design. It is supplied complete with a removable 40mm (30/10) 5-pin half euro cylinder, three keys, and a retaining screw. Because it accepts standard half euro cylinders without requiring any modification, locksmiths and security managers can easily swap the cylinder to match existing keyed-alike or master-keyed systems, saving time and reducing replacement costs.

## Technical Specifications

- **Body Width:** 54mm
- **Body Height:** 43.5mm
- **Body Depth:** 26.5mm
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 28mm

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
