Specification Summary

Brand	Asec
Product type	Body Only

Product Description

The Asec Open Shackle Padlock Body is designed to accept a standard 40mm (30/10) half Euro cylinder fitted with an adjustable cam, with no cutting or modifications required. This makes it an ideal choice for integrating padlocks into existing master key systems or keyed-alike suites, allowing you to secure properties such as garages, gates, and communal bins using your existing keys.

Constructed with a robust 26.5mm thick chrome-plated brass body and a 10mm diameter stainless steel shackle, this padlock offers excellent physical security and high resistance against bolt cutter attacks. Its weather-resistant design ensures reliable performance in outdoor environments.

Please note that this is a padlock body only; the half Euro cylinder is not included and must be purchased separately.

Technical Specifications

- **Body Width:** 54mm
- **Body Height:** 43.5mm
- **Body Depth:** 26.5mm
- **Shackle Diameter:** 10mm
- **Horizontal Clearance:** 28mm
- **Vertical Clearance:** 25mm
- **Finish:** Silver
- **Compatibility:** Standard 40mm (10/30) half Euro cylinder with adjustable cam

Key Features

- **Cylinder Ready:** Designed to accept a standard 40mm (30/10) half Euro cylinder with no cutting or modifications required.
- **Master Key Compatible:** Ideal for integration into master key systems or keyed-alike suites.
- **High Resistance:** 10mm stainless steel shackle and 26.5mm thick brass body provide strong resistance against bolt cutter attacks.
- **Weather Resistant:** Durable construction suitable for outdoor use on garages, bins, and gates.
- **Body Only:** Supplied without a cylinder, allowing you to choose and fit your own compatible cylinder (sold separately).

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
