Specification Summary

Brand	Asec
Product type	Bullet Locks
Keyway	Asec 6 pin locks

Product Description

The Asec Oval Bullet Lock is a highly reliable security solution specifically designed to secure roller shutters, sliding doors, and pull-down guards. Commonly used in commercial and industrial environments, these locks provide a robust physical barrier against unauthorised entry.

Operating in conjunction with a bullet lock housing, inserting and turning the key retracts the sprung pin on top of the lock, allowing the bullet to be easily removed so the shutter can be opened. For enhanced security, the key can only be removed when the lock is in the fully locked position, ensuring your premises are never left accidentally unsecured.

These high-quality locks feature a hardened steel anti-drill pin to resist physical attacks. They are available in multiple configurations to suit your specific installation requirements. Please choose from the options below to select your preferred pin length (45mm or 55mm), keying option (Keyed to Differ or Keyed Alike suites 'A' or 'B'), weight (120g or 130g), and corresponding manufacturer reference (AS1990 to AS1995).

Technical Specifications

- **Brand:** Asec
- **Cylinder Profile:** 22mm x 15mm (Oval)
- **Cylinder Finish:** Polished Brass
- **Housing Projection:** 35mm
- **Pin Length:** 45mm or 55mm (please choose from the options below)
- **Keying:** Keyed to Differ or Keyed Alike (please choose from the options below)
- **Keys Supplied:** 2
- **Weight:** 120g or 130g (please choose from the options below)

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
