Specification Summary

Brand	Asec
Product type	Pull

Product Description

The Asec Pair of Aluminium Push Pad Handles is a durable and practical door furniture solution designed for high-traffic commercial and domestic environments. Manufactured from high-quality solid extruded aluminium, these robust push pads offer a reliable grip that is easy to operate, making them an ideal choice for a wide range of doors.

These handles are supplied as a complete pair and are non-handed, allowing for versatile installation on either left or right-handed doors. They feature a secure bolt-through fixing method and come complete with all the necessary fixings to suit doors up to 50mm thick.

These push pad handles are available in multiple finishes and manufacturer references. Please select your preferred finish, manufacturer reference, and barcode from the options below to suit your specific installation requirements.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
