Specification Summary

Brand	Asec
Product type	Panic Latch

Product Description

The Asec Panic Latch is a robust emergency exit solution designed to facilitate safe and swift egress from a building. Fully certified to BS EN 1125, this single push bar panic latch is ideal for public buildings where occupants may be unfamiliar with escape routes.

Operating via a simple push bar, depressing the bar instantly disengages the latch to allow the door to open. It is suitable for single doors or the first opening leaf of rebated double doors, accommodating door leaves up to 2500mm high and up to 200kg in weight.

This panic latch is finished in silver enamelled and is available in multiple handing configurations (Left Hand or Reversible), manufacturer references (AS3101 or AS3102), and door width options. Please select your preferred handing, manufacturer reference, and door width from the options below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
