Product Description

Keep your pet safe and easily identifiable with the Asec "I'm Chipped" Pet Tag. This high-quality, chrome-plated pet tag is designed to provide peace of mind for pet owners, clearly indicating that your pet is microchipped.

The front of the tag features the prominent, clear legend "I'M CHIPPED," while the smooth, blank reverse side is perfect for engraving your contact details, such as your phone number, address, or pet's name. This ensures that if your pet ever wanders off, anyone who finds them can quickly get in touch with you.

Supplied complete with a durable split ring, this tag is easy to attach securely to any standard collar or harness. It is also supplied in a smart presentation box, making it an ideal gift for new pet owners.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
