Specification Summary

Brand	Asec
Product type	Photo luminescent

Product Description

The Asec Photoluminescent Fire Action Procedure Sign is an essential safety addition for any commercial, public, or residential building. Designed to provide clear, easy-to-read instructions in the event of an emergency, this sign ensures that occupants and visitors know exactly what steps to take during an evacuation.

In a fire or emergency situation, visibility can quickly become compromised by dense smoke, poor lighting, or sudden power failures. Thanks to its photoluminescent finish, this sign absorbs ambient light and glows in the dark, remaining highly visible even in complete darkness. This crucial feature helps guide occupants safely, supporting your building's emergency response and evacuation plans.

Measuring 200mm x 300mm, the sign features clear and legible safety instructions, making it ideal for installation in offices, warehouses, schools, and other shared spaces.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS11558

- **Finish:** Photoluminescent
- **Width:** 200mm
- **Height:** 300mm
- **Weight:** 100g
- **Pack Quantity:** 1
- **Barcode:** 5015397546845

Key Features

- **High Visibility:** Photoluminescent finish glows in the dark, ensuring the sign remains visible during power cuts, poor lighting, or smoke-filled conditions.
- **Clear Instructions:** Displays legible, easy-to-follow fire action procedures to guide occupants during an emergency.
- **Standardised Size:** At 200mm x 300mm, it is highly visible and suitable for a wide range of commercial and residential environments.
- **Durable Design:** Built to withstand everyday wear while maintaining its safety-critical properties.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
