Specification Summary

Brand	Asec
Product type	Key Ring

Product Description

The Asec PID Identification Card Holder is a practical and straightforward solution for displaying and carrying personal identification cards, badges, or labels. Supplied on a card of 12, each clear plastic holder comes complete with its own split ring, allowing for quick and secure attachment to keys, lanyards, bags, or belt loops.

Designed for convenience and durability, these lightweight holders are ideal for offices, schools, events, or any environment requiring clear and accessible identification. The transparent finish ensures that your ID cards or labels remain fully visible and protected while on the go.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS1252
- **Finish:** Clear
- **Pack Quantity:** 12
- **Weight:** 26g
- **Barcode:** 5015931104050

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
