Specification Summary

Brand	Asec
Product type	Spindle

Product Description

The Asec Plain Spindle (8mm x 140mm) is a robust and reliable replacement spindle designed for use with standard door handles, knobs, and lock mechanisms. Measuring 140mm in length with a standard 8mm square profile, this plain spindle is ideal for replacing worn, damaged, or lost spindles in both residential and commercial door furniture.

Featuring a durable silver finish, this spindle is engineered for strength and longevity, ensuring the smooth and dependable operation of your door handles. It is supplied as a single loose item, offering a highly cost-effective solution for quick repairs and maintenance. Whether you are fitting new door hardware or restoring an existing setup, this Asec spindle provides a secure connection to keep your doors operating smoothly.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
