Specification Summary

Brand	Asec
Product type	Knob Furniture

Product Description

The Asec Plastic Rim/Mortice Knob Set is a versatile and cost-effective door furniture solution designed for use with lever rim locks or lever mortice locks. Manufactured from durable plastic, this non-handed knob set is fully reversible, making it suitable for both left and right-handed doors.

Each set is supplied complete with a spindle and matching escutcheons, providing everything you need for a straightforward installation. With a comfortable 48mm knob diameter and a 45mm projection, it offers a practical grip and a neat, low-profile appearance.

This knob set is available in a choice of finishes, including Black, Brown, and White. Please choose your preferred finish, barcode, and manufacturer reference from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
