Product Description

The Asec Plate Mounted Stainless Steel Pull Handle is a durable and stylish door furniture solution, ideal for both commercial and domestic environments. Crafted from high-quality Grade 304 stainless steel, this robust pull handle features a 225mm x 19mm round bar mounted on a sturdy 300mm x 75mm faceplate.

Designed for surface mounting, this screw-fixed handle is perfect for high-traffic areas such as offices, schools, and public buildings. The satin stainless steel finish provides a modern, clean aesthetic while offering excellent corrosion resistance. The package comes complete with all necessary fixings for a straightforward installation.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
