Specification Summary

Brand	Asec
Product type	Full Green Finish

Product Description

The Asec Press To Exit Green Button (AS8010) is a highly reliable and durable exit button designed for modern access control systems. Featuring a clear, bold "Press To Exit" legend on a full green finish, this button provides an obvious and easy-to-use egress point for users.

Engineered for versatility, the unit is designed for flush mounting as standard, allowing it to sit neatly against the wall. For installations where flush mounting is not possible, a compatible surface box is available separately. With an IP67 rating on the front cover, the button features sealed contacts that protect against dust and water ingress, making it suitable for both internal and external applications.

The button operates via a momentary press actuator, springing back to its original position immediately after release. It is equipped with both Normally Open (N/O) and Normally Closed (N/C) contacts, offering flexible wiring options to suit various lock and access control configurations.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS8010
- **Finish:** Green

- **Fitting:** Flush
- **IP Rating:** IP67 (Front Only)
- **Input Voltage:** 12/24V DC
- **Outputs:** N/O & N/C
- **Operation:** Momentary Press Actuator
- **Legend:** Press To Exit
- **Illumination:** No
- **Width:** 85mm
- **Depth:** 30mm
- **Weight:** 360g
- **Pack Quantity:** 1

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
