Specification Summary

Brand	Asec
Product type	Full Stainless Steel

Product Description

The Asec AS8012 Press To Exit Stainless Steel Surface 1 Gang Button is a robust and reliable egress control solution designed for modern access control systems. Featuring a high-quality 2mm stainless steel mounting plate, this single-gang exit button is built to withstand frequent use in commercial, public, and residential environments.

This surface-mounted unit comes complete with a 25mm surface gang box and security screws, ensuring a secure and straightforward installation. It operates on a momentary basis, springing back to its original position once released. The low-profile switch at the rear of the plate keeps the overall depth minimal while housing reliable 5

Amp double pole contacts. With both Normally Open (N/O) and Normally Closed (N/C) outputs, it offers versatile integration with a wide range of electronic locking systems.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS8012
- **Finish:** Stainless Steel
- **Fitting:** Surface
- **Operation:** Momentary
- **Outputs:** N/O (Normally Open) & N/C (Normally Closed)
- **Rating / Current Consumption:** 5 Amps @ 30V DC (Voltage-free double pole)
- **Input Voltage:** 12/24V DC
- **Illumination:** No
- **Plate Thickness:** 2mm
- **Dimensions:** 85mm (Width) x 20mm (Depth)
- **Weight:** 351g
- **Legend:** Press To Exit

Key Features

- **Robust Construction:** Made with a durable 2mm stainless steel mounting plate for long-lasting performance.
- **Complete Installation Kit:** Supplied with a 25mm surface-mounting gang box and security screws.
- **Low-Profile Design:** Features a low-profile switch at the rear of the plate to ensure a neat, unobtrusive fit.
- **Versatile Wiring:** Double pole contacts with both N/O and N/C outputs to suit various access control setups.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
