Specification Summary

Brand	Asec
Product type	Privacy

Product Description

The Asec Privacy Knobset is an ideal choice for internal doors where privacy and safety are paramount, such as bathrooms and bedrooms. This complete set combines convenience with peace of mind, featuring an internal thumbturn that locks both the inside and outside knobs. In the event of an emergency, the external knob features a slotted override that can be easily unlocked from the outside using the provided slotted key or a simple flat object like a coin.

Each set is supplied with an adjustable tubular latch, allowing for a flexible backset of either 60mm or 70mm to suit your door preparation. It comes complete with fixing screws and comprehensive fitting instructions for a straightforward installation.

This knobset is available in multiple finishes, including Polished Brass and Stainless Steel, with corresponding manufacturer references and barcodes. Please choose your preferred options from the selection below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
