Product Description

The Asec 'Private' Self-Adhesive Sign is a sleek and professional solution for designating restricted areas in offices, commercial premises, and public buildings. Featuring a polished gold effect with a mirror-like surface, this mini sign offers a contemporary, high-quality finish that seamlessly complements modern architectural ironmongery.

Measuring 200mm x 50mm, this sign is ideal for locations where space is limited or where larger, bulky signage would look unsightly. It is manufactured from durable, semi-rigid PVC and features a self-adhesive backing, making it incredibly easy to install on any clean, flat, and dry surface without the need for screws or drilling.

With its clear, bold 'Private' legend, it provides an immediate and stylish visual prompt to help manage foot traffic and maintain privacy in your establishment.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
