Featuring a prominent, contrasting red colour and bold white text, this sign provides an immediate and clear warning to visitors and potential trespassers.

Manufactured from high-quality semi-rigid PVC, the sign is built to withstand everyday environmental wear while remaining lightweight and durable. It features a strong self-adhesive backing, allowing for quick, hassle-free installation on most smooth, clean, and dry surfaces without the need for tools, screws, or drilling.

Measuring 400mm by 600mm, this large-format sign ensures maximum visibility from a distance, making it ideal for commercial premises, private estates, industrial sites, and residential properties.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
