Specification Summary

Brand	Asec
Product type	DDA

Product Description

The Asec Push To Exit Blue Dome DDA Exit Button is a highly durable and accessible egress solution designed to assist with Disability Discrimination Act (DDA) compliance. Featuring a large, high-visibility blue dome button on a flush-fitting plate, it is exceptionally easy to operate from any angle, making it ideal for users with limited dexterity or physical impairments.

Built for demanding environments, this exit button features a robust powder-coated stainless steel plate finished in RAL 9016 white. It boasts an impressive Impact Rating of 9 and an IP67 weatherproof rating on the front, ensuring reliable performance in high-traffic or exposed areas.

Installation is straightforward thanks to the included flush-mounting box and pre-wired 150mm flying leads. The integrated SPDT microswitch provides momentary operation with both Normally Open (N/O) and Normally Closed (N/C) outputs, offering excellent compatibility with a wide range of electronic locking and access control systems. Tested to 1,000,000 mechanical operations, this button offers long-term reliability you can trust.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS9850
- **Plate Finish:** Powder-coated stainless steel (RAL 9016 White)
- **Fitting:** Flush
- **Input Voltage:** 12V AC/DC
- **IP Rating:** IP67 (Front only)
- **Impact Rating:** 9
- **Operation:** Momentary
- **Outputs:** Normally Open (N/O) & Normally Closed (N/C)
- **Switch Type:** SPDT microswitch
- **Mechanical Life:** 1,000,000 operations
- **Dimensions:** 85mm (W) x 37mm (D)
- **Wiring:** 150mm flying leads

Key Features

- **DDA Compliant Design:** Large, high-visibility blue dome button is easy to operate from any angle, assisting users with limited dexterity.
- **Robust Construction:** Powder-coated stainless steel plate with an Impact Rating of 9 for high durability.
- **Weatherproof Front:** IP67 rated front face protects against dust and water ingress.
- **Easy Installation:** Supplied complete with a flush-mounting box and 150mm pre-wired flying leads.
- **Clear Signage:** Features a bold, clear "Push To Exit" legend.
- **Long Service Life:** Tested to withstand up to 1,000,000 mechanical operations.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
