Specification Summary

Brand	Asec
Product type	Lever Furniture

Product Description

The Asec Radius Backplate Lever Furniture is a high-quality, DDA-compliant (Disability Discrimination Act) door handle set designed for commercial, public, and residential environments. Featuring a modern, round-ended radius plate and a comfortable round bar lever, this sprung door furniture is manufactured from durable Grade 304 stainless steel with a sleek satin finish.

To suit different door setups and lock types, this lever furniture is available in multiple mechanisms, including Latch Only, UK Mortice, Euro Cylinder, and Bathroom configurations. Depending on your chosen mechanism, lock centres are available in 72mm or 78mm options. Please select your required mechanism and specifications from the options below.

The handles feature a concealed bolt-through fixing for a clean, professional finish, with standard 200mm screw centres. They are fully sprung to ensure the lever returns smoothly to its original position after use.

Technical Specifications

- **Plate Height:** 245mm
- **Plate Width:** 45mm
- **Screw Centres:** 200mm
- **Material:** Grade 304 Stainless Steel
- **Finish:** Satin Stainless Steel

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
