Specification Summary

Brand	Asec
Product type	Asec

Product Description

The Asec Rainshield is a robust and practical protective cover designed to adapt Asec internal surface-mounted keypads for external installation. By shielding the keypad from the elements, it allows you to safely position your access control unit outdoors, expanding your security installation options.

Constructed from durable black plastic, this rainshield features an integrated rubber seal that provides reliable protection against water ingress. Beyond weatherproofing, its hooded design offers an extra layer of security by helping to conceal PIN entry from onlookers, preventing code compromise.

This surface-mounted shield is specifically designed to suit Asec internal surface keypads (including models AS11890 and AS11891), making it a simple and cost-effective upgrade for outdoor access control setups.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11892
- **Material:** Plastic

- **Finish:** Black
- **Width:** 104mm
- **Depth:** 92mm
- **Height:** 150mm
- **Weight:** 162g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
