Specification Summary

Brand	Asec
Product type	Furniture Lock

Product Description

The Asec Ratchet Showcase Lock is a secure and easy-to-install locking solution designed specifically for glass display cabinets and retail showcases with overlapping sliding doors. It is an ideal choice for securing merchandise in retail environments, trophy rooms, or exhibition spaces.

Simple and Effective Operation

This lock operates by fitting the ratchet arm onto the rear sliding glass door. The lock body then slides smoothly along the arm until it butts tightly against the edge of the front sliding door, preventing the doors from passing each other and opening. Unlocking is quick and simple using one of the two supplied keys.

Versatile and Durable Design

Crafted with a high-quality chrome-plated finish, this lock offers both durability and a clean, professional aesthetic that blends seamlessly with modern glass cabinets. It features reversible handing for versatile installation and is designed to fit glass doors up to 7mm in thickness.

Technical Specifications

- **Brand:** Asec

- **Manufacturer Reference:** AS11769
- **Body Diameter:** 33mm
- **Cylinder Projection:** 17mm
- **Door Thickness:** 7mm (Glass)
- **Finish:** Chrome Plated
- **Handing:** Reversible
- **Keying:** Keyed to differ
- **Keys Supplied:** 2

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
