Specification Summary

Brand	Asec
Product type	Accessory

Product Description

The Asec Rebate Kit is an essential accessory designed to allow Asec Euro British Standard Mortice Deadlocks to be fitted to rebated double doors. When double doors overlap, a standard lock cannot be installed flush against the door frame. This rebate set bridges the gap, ensuring a secure, professional, and seamless fit on overlapping timber doors.

Specifically engineered for the Euro cylinder version of Asec's British Standard deadlocks, this kit is compatible with locks conforming to British Standards BS3621 and BS8621. It features countersunk screw holes to ensure a flush, snag-free finish once installed. Supplied in a high-quality satin chrome finish, it perfectly complements your existing door hardware while maintaining the security integrity of your double door setup.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10444
- **Finish:** Satin Chrome
- **Size:** 13mm
- **Weight:** 220g
- **Compatibility:** Asec Euro British Standard Mortice Deadlocks (conforming to BS3621 & BS8621)

Key Features

- **Double Door Compatibility:** Enables standard Asec Euro deadlocks to be securely fitted to overlapping rebated timber double doors.
- **Flush Fitting:** Features countersunk screw holes to ensure a neat, flush, and snag-free installation.
- **Euro Version Only:** Specifically designed for use with Euro cylinder mortice deadlocks.
- **Durable Finish:** Supplied in a high-quality satin chrome finish to match modern door furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
