Product Description

The Asec Rebate Conversion Kit is designed to allow Asec British Standard (BS) and non-BS mortice key sashlocks to be fitted to a pair of rebated double doors. When installing a mortice sashlock on double timber doors with rebated meeting stiles, this rebate kit provides the necessary components to ensure a secure, flush, and professional installation.

This rebate kit is designed for 13mm rebates and is available in multiple finish options, including Polished Brass and Satin Chrome, to match your existing door hardware. Please select your preferred finish, manufacturer reference (AS1078 or AS1079), and barcode from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
