## Product Description

The Asec Red Dome Panic Button Flush Fit is a heavy-duty, reliable emergency actuator designed for access control and security systems. Featuring a high-visibility red dome button engraved with the clear legend "Panic Button", it ensures immediate identification and ease of operation in critical situations.

This unit is designed for flush fitting into a standard back box, presenting a clean and professional appearance. It features a robust stainless steel faceplate that offers excellent durability. The button operates on a maintained "push on / pull off" mechanism, ensuring the alarm state remains active until manually reset. Equipped with both Normally Open (N/O) and Normally Closed (N/C) contacts, it provides versatile integration options for a wide range of security and alarm systems.

Please note: While designed for flush mounting, a surface-mounting box is available separately if required.

## Technical Specifications

- **Brand:** Asec
- **Part Number:** AS12372
- **Faceplate Height:** 85mm
- **Faceplate Width:** 85mm
- **Depth:** 30mm
- **Finish:** Stainless Steel
- **Fitting:** Flush fit (surface box available separately)
- **Input Voltage:** 12/24V DC
- **Operation:** Push on / pull off (maintained)
- **Outputs:** Normally Open (N/O) & Normally Closed (N/C) contacts
- **Legend:** "Panic Button"
- **Illumination:** No
- **Weight:** 400g

## Key Features

- **High-Visibility Red Dome:** Prominent, easy-to-activate red dome button with engraved "Panic Button" legend.
- **Durable Construction:** Robust stainless steel faceplate provides long-lasting durability and a clean, modern aesthetic.
- **Maintained Operation:** Push on / pull off mechanism ensures the alarm state is held until manually reset.
- **Versatile Wiring:** Dual N/O and N/C contacts allow for flexible integration with various access control and alarm systems.
- **Flush Mounting:** Low-profile flush-fit design blends seamlessly into walls, with surface boxes available if required.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
