Specification Summary

Brand	Asec
Product type	Call Point

Product Description

The Asec Resettable Illuminated Triple Pole Call Point (AS12367) is a highly versatile and secure solution designed for emergency door release and access control systems. This surface-mounted unit features a triple-pole configuration, providing flexible wiring options with two sets of COM / NO / NC change-over contacts to integrate seamlessly with various security systems.

Equipped with an adjustable timer, the call point allows for a time delay of up to 60 seconds, making it ideal for controlled egress applications. It operates on a dual 12/24V DC input voltage. To ensure maximum visibility and clear status indication, the unit features an adjustable LED and an adjustable activation sounder.

Designed for durability and ease of use, this resettable call point eliminates the need for replacement glass after activation - simply reset the unit using a compatible key. It also includes a protective cover with an alarmed cover sounder to prevent accidental activation or tampering. Finished in a highly visible green with an "Emergency Door Release" legend, it is a reliable choice for commercial and public buildings.

Technical Specifications

- **Brand:** Asec
- **Part Number:** AS12367
- **Input Voltage:** 12/24V DC
- **Pole Configuration:** Triple pole (COM / NO / NC / Change-over-contacts x 2)
- **Time Delay:** Adjustable up to 60 seconds
- **Fitting:** Surface mounted
- **Finish:** Green
- **Legend:** Emergency Door Release
- **Dimensions:** 85mm (H) x 85mm (W) x 25mm (D)
- **Weight:** 200g

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
