### Product Description

The Asec Resettable Illuminated Triple Pole Call Point is a highly reliable emergency door release solution designed for access control systems. Housed in a durable green plastic casing, this surface-mounted unit features a clear 'Emergency Door Release' legend, making it ideal for commercial and public buildings where safety and quick egress are paramount.

Unlike traditional glass-break call points, this resettable design eliminates the need for replacement glass after activation. It can be quickly reset using a compatible key, making it both cost-effective and low-maintenance. The unit is equipped with a coloured LED status indicator to provide clear visual feedback and an adjustable alarm sounder, allowing you to set the volume to suit your environment.

With its triple pole configuration and dual COM / NO / NC change-over contacts, this call point offers excellent flexibility for integration with various security and door control systems. It operates on a 12/24V DC input voltage, making it compatible with standard access control setups.

## Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS10996
- **Barcode:** 5055120781891
- **Casing Material:** Green plastic
- **Fitting:** Surface mounted
- **Input Voltage:** 12/24V DC
- **Pole Configuration:** 3 Pole (Triple Pole)
- **Contacts:** 2 x COM / NO / NC change-over contacts
- **Legend:** Emergency Door Release
- **Width:** 85mm
- **Depth:** 42mm
- **Weight:** 500g
- **Packaging:** Boxed (Pack Quantity: 1)

## Key Features

- **Resettable Design:** Eliminates the need for replacement glass, allowing the unit to be reset quickly and cost-effectively after activation.
- **Coloured LED Status Indicator:** Provides clear, immediate visual confirmation of the unit's status.
- **Adjustable Alarm Volume:** Features a built-in sounder with adjustable volume to suit different environment requirements.
- **Triple Pole Configuration:** Offers versatile integration options with access control and fire safety systems.

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
