Product type	Key Ring

Product Description

The Asec Retractable Key Streak is a durable and reliable key reel designed to keep your keys secure and easily accessible at all times. Ideal for security personnel, facilities managers, and commercial environments, this key reel features a robust belt clip that attaches securely to your belt or waistband.

Constructed with a smart chrome-plated finish, the 51mm diameter casing houses a strong 100cm (1-metre) nylon retractable cord. This generous length allows you to easily extend and use your keys without having to detach the reel from your clothing. Each unit is fitted with a 28mm split ring to hold multiple keys securely. Supplied in a convenient pack of 12, this is an excellent, cost-effective solution for equipping teams or maintaining spares.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
