Product Description

This Asec Retro Fit Repair Plate Pair is the ideal solution for retrofitting lever on rose door furniture. When replacing or upgrading door handles, old fixing holes can often be left exposed, compromising both the security and the aesthetic appeal of your door. These repair plates are designed to sit behind your lever on rose door sets, neatly concealing any previous installation damage or redundant screw holes while providing a solid, secure base for your new hardware.

Crafted with a high-quality satin stainless steel finish, these plates offer a clean, modern look that seamlessly blends with contemporary door furniture. They are supplied as a pair, making them a practical and cost-effective choice for restoring the finish of a single door.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS11868
- **Diameter:** 70mm
- **Finish:** Satin Stainless Steel

- **Pack Quantity:** 1 Pair

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
