Specification Summary

Brand	Asec
Product type	Knob Furniture

Product Description

The Asec Rim Knob Set is a classic, traditional door furniture choice designed for timber doors. With a 50mm knob diameter, this set is ideal for adding a timeless look to your home while offering reliable, everyday operation.

This knob set is specifically designed to be used in conjunction with lever rim locks. It is suitable for timber doors with a thickness ranging from 40mm to 60mm. The set is non-handed, meaning it can be installed on either left or right-handed doors, and comes complete with a robust 8mm steel spindle.

Available in Polished Brass or Chrome Plated finishes, this versatile knob set can be selected to match your existing door hardware. Please choose your preferred finish from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
