Specification Summary

Brand	Asec
Product type	Rim

Product Description

The Asec Rim Release (AS9832) is a highly durable, surface-mounted electric strike designed for medium to high duty access control applications. Featuring a robust zinc alloy case with a high-end black coating, complemented by a stainless steel front plate and lip, this rim release offers an excellent blend of security, longevity, and modern aesthetics.

One of the standout features of this electric release is its site-reversible operation. It allows for a simple, hassle-free interchange between fail-locked (fail secure) and fail-unlocked (fail safe) modes on-site, with no loose pins to worry about. Engineered for inward-opening doors, it boasts an impressive holding force of up to 907kg (2000lbs), providing exceptional resistance against forced entry.

The unit is powered by a 12V DC continuously rated coil, ensuring reliable performance with low standby current consumption (0.25A). Backed by a 1-year manufacturer's guarantee, the Asec Rim Release is a dependable choice for commercial and residential security systems alike.

Technical Specifications

- **Manufacturer Reference:** AS9832
- **Input Voltage:** 12V DC
- **Current Consumption:** 0.25A
- **Holding Force:** 907kg (2000lbs)
- **Fitting:** Rim (surface mount)
- **Handing:** Inward opening
- **Body Dimensions:** 88mm (H) x 40mm (D)
- **Faceplate Dimensions:** 88mm (H) x 62mm (W)
- **Jaw Dimensions:** 40mm (H) x 16mm (W) x 14mm (D)
- **Finish:** Stainless Steel & Black
- **Guarantee:** 1 Year

Key Features

- **Site-Reversible Operation:** Easily switch between fail-locked (fail secure) and fail-unlocked (fail safe) modes on-site with no loose pins.
- **High Holding Force:** Offers up to 907kg (2000lbs) of resistance for robust security.
- **Durable Construction:** Built with a zinc alloy case, stainless steel front plate, and stainless steel lip.
- **Energy Efficient:** Features a 12V continuously rated coil with low standby current consumption.
- **High-End Finish:** Sleek black coated body with a stainless steel faceplate to suit modern doors.
- **Medium to High Duty:** Ideal for high-traffic commercial or residential access control systems.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
