Specification Summary

Brand	Asec
Product type	Till & Drawer Lock

Product Description

The Asec Roller Arm Multi Drawer Lock is a reliable and easy-to-install security solution designed specifically for multi-drawer metal cabinets and office furniture. Featuring a roller arm mechanism, this lock is ideal for securing pedestal drawers and filing cabinets.

Installation is quick and straightforward thanks to the convenient snap-fit spring clip. Simply push the lock into the prepared hole in your metal cabinet, and it will snap securely into place without the need for complex tools.

Finished in a clean, professional chrome plating, this lock blends seamlessly with modern office aesthetics. It is supplied keyed to differ, ensuring individual security for your drawers, and comes complete with two keys as

standard.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
