Specification Summary

Brand	Asec
Product type	Shutter Locks

Product Description

The Asec Roller Shutter Lock LH & RH Set (AS10105) is a robust and reliable security solution designed specifically for commercial and industrial roller shutters. Supplied as a convenient twin pack, this set includes one left-hand and one right-hand lock to provide a complete locking system for your shutter doors.

Constructed with a durable steel case and featuring a polished brass cylinder, these locks are built to withstand daily use. The design allows for key entry from both the inside and outside, ensuring easy operation and access control from either side of the shutter. Each lock is equipped with a cranked deadbolt that extends by 25mm, delivering a secure hold to protect your premises against unauthorised entry.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
