Specification Summary

Brand	Asec
Product type	Bullet Locks

Product Description

The Asec Round Faced Bullet Lock is designed to secure the most popular styles of roller shutters. This robust lock operates via a sprung locking pin on top of the cylinder barrel, which is depressed by turning the key, allowing the lock to be easily inserted into or withdrawn from its housing. When locked, the tail of the bullet lock extends into the roller door, preventing it from being opened.

Please note that the lock housings are sold separately and are typically welded to either side of the shutter frame. For added security, the key is only removable when the lock is in the fully locked position.

This bullet lock is available in multiple configurations to suit your security requirements. You can choose between a single lock keyed to differ or keyed alike pairs (available in Keyed Alike - A or Keyed Alike - B options). Depending on your selection, they are supplied with either 2 or 4 keys. Please choose your preferred keying option, pack quantity, and key requirements from the options below.

Technical Specifications

- **Cylinder Diameter:** 25mm
- **Cylinder Finish:** Nickel Plated
- **Body Dimensions:** 45mm (Length) x 21mm (Height) x 15mm (Width)
- **Total Length:** 95mm

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
