Specification Summary

Brand	Asec
Product type	Snap Fix

Product Description

The Asec Round Keyed Alike (KA) Snap Fit Camlock is a quick and easy-to-install locking solution designed specifically for metal cupboards, lockers, and cabinets. Featuring a round face and a robust chrome-plated finish, this camlock combines durability with a clean, professional aesthetic.

This model is supplied keyed alike to key reference AS339, making it an ideal choice for multi-cabinet installations where a single key needs to operate multiple locks. It operates with a 180° clockwise movement to lock and unlock, and uses a reliable 5-pin mechanism for security.

Installation is straightforward thanks to the snap-fit design, which secures the lock firmly in place using the included spring steel locking plate. Each camlock is supplied complete with two keys, offering an efficient and secure solution for commercial, office, or industrial metal storage.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
