Product Description

The Asec Round KD Nut Fix Camlock is an easy-to-install, round-faced locking solution designed specifically for securing both metal and timber cupboards, lockers, and cabinets. Operating with a smooth 90-degree clockwise turn, these camlocks offer reliable, everyday security for commercial, office, or residential storage.

Each camlock is keyed to differ (KD), ensuring individual security across multiple installations. They are supplied with two keys as standard. Depending on your installation requirements, these camlocks are available in a variety of body lengths, cam heights, and wafer configurations. Please select your required body length, key series, and specifications from the options below to find the perfect fit for your furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
