### Product Description

The Asec Round Mini KD Nut Fix Camlock 180º is a compact, high-quality locking solution designed specifically for applications where space is at a premium. This round-faced cam lock is ideal for securing metal or timber cabinets, drawers, display cases, noticeboards, and alarm panels. It features a robust nut-fixed body that ensures a secure and straightforward installation, often without needing to remove the cam during fitting.

Supplied keyed to differ (KD) with two keys, this mini camlock operates with a smooth 180-degree clockwise movement. It is finished in a clean, professional chrome plating that complements modern cabinetry and office furniture.

This product is available in multiple sizes and configurations to suit your specific installation requirements. Please select your preferred body length, body diameter, key series, and weight from the options below.

## Technical Specifications

- **Brand:** Asec

## Brand Profile

Asec

**ASEC** is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
