Product Description

The Asec Safety Hasp & Staple is a traditional, robust security solution designed to secure sheds, gates, outbuildings, and storage chests. Manufactured from durable pressed steel, this hasp and staple features concealed fixings when closed, preventing unauthorised removal and offering an extra layer of security against tampering.

To suit your specific installation requirements, this product is available in a choice of finishes, including Black and Galvanised. It also comes in multiple lengths, ranging from 75mm to 15.2cm, with weights varying from 100g to 230g depending on the size selected. Each pack contains one hasp and staple, supplied in visual (Visi) packaging complete with the necessary fixing screws for a straightforward installation. Please choose your preferred finish, length, and weight from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
