Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Safety Lockout Tagout Padlock with a long shackle is specifically designed for industrial Lockout/Tagout (LOTO) safety procedures. Featuring an extended shackle with a 75mm vertical clearance (82mm shackle height), this padlock is ideal for securing hard-to-reach isolation points, valves, and energy-control devices.

Engineered with safety in mind, the padlock is non-conductive, non-sparking, and highly resistant to chemicals and corrosion, making it suitable for demanding industrial environments. The ribbed body ensures a secure grip even when wearing gloves, while the key-retaining feature guarantees that the padlock cannot be left unlocked by accident - the key can only be removed when the shackle is securely locked.

These padlocks are available in a selection of vibrant, colour-coded finishes to help easily identify different departments, teams, or isolation zones. Please choose your preferred finish, barcode, and manufacturer reference from the options below.

Technical Specifications

- **Body Width:** 42mm
- **Body Height:** 45mm
- **Body Depth:** 20mm
- **Shackle Diameter:** 6mm
- **Vertical Clearance:** 75mm
- **Horizontal Clearance:** 20mm
- **Keys Supplied:** 1
- **Weight:** 130g
- **Pack Quantity:** 1
- **Finishes Available:** Black, Blue, Green, Orange, Red, Yellow (please choose from the options below)
- **Manufacturer References:** AS11492, AS11493, AS11494, AS11495, AS11496, AS11497 (please choose from the options below)

Key Features

- **LOTO Optimised:** Designed specifically for Lockout / Tagout applications to ensure workplace safety.
- **Long Shackle Design:** Extended shackle with 75mm vertical clearance for versatile locking applications.
- **Enhanced Safety:** Non-conductive, non-sparking, and highly resistant to chemicals and corrosion.
- **Key Retaining:** The key cannot be removed while the padlock is open, preventing accidental unlocking.
- **Ribbed Body:** Textured design provides an easy, slip-resistant grip during operation.
- **Colour Coded:** Supplied with a photo-luminescent label and available in multiple distinct finishes for clear identification.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
