Specification Summary

Brand	Asec
Product type	Lock Out Tag Out

Product Description

The Asec Safety Lockout Tagout Padlock with Wire Shackle is a highly versatile and reliable safety solution designed specifically for Lockout / Tagout (LOTO) procedures. Featuring a flexible 3mm wire shackle, this padlock is ideal for securing smaller Miniature Circuit Breaker (MCB) lockouts or for use in tight, awkward spaces where standard rigid shackles are unsuitable.

Engineered with workplace safety in mind, the padlock is completely non-conductive, non-sparking, and highly resistant to both chemicals and corrosion. This makes it exceptionally suited for demanding industrial and electrical

environments. For added security, the key-retaining mechanism ensures the padlock cannot be left unlocked by accident, as the key can only be removed when the shackle is securely locked. The ribbed body provides a secure grip even when wearing gloves, while the colour-coded design and photo-luminescent label ensure quick, clear identification in all lighting conditions.

Technical Specifications

- **Body Width:** 42mm
- **Body Height:** 45mm
- **Body Depth:** 20mm
- **Shackle Diameter:** 3mm
- **Locking Mechanism:** 6-pin
- **Keys Supplied:** 1
- **Weight:** 90g
- **Manufacturer Reference:** AS11498

Key Features

- **Flexible Wire Shackle:** 3mm wire shackle is perfect for smaller MCB lockouts and applications where standard shackles will not fit.
- **LOTO Specific Design:** Non-conductive, non-sparking, and highly resistant to chemicals and corrosion.
- **Key Retaining:** Key cannot be removed while the padlock is open, preventing accidental unlocking.
- **Easy Handling:** Ribbed body design ensures a secure grip, even when wearing work gloves.
- **High Visibility:** Colour-coded with a photo-luminescent label for quick and easy identification.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
