Specification Summary

Brand	Asec
Product type	Escutcheon & Rose

Product Description

The Asec Self Adhesive Small Euro Escutcheon is designed to provide a neat, professional, and aesthetically pleasing finish to your door installations and repairs. Measuring 60mm high by 35mm wide, this compact escutcheon fits perfectly around any standard euro profile cylinder.

One of its standout benefits is the self-adhesive backing, which allows for a quick and straightforward installation. There is no need for screws, drilling, or complex tools, making it an ideal choice for both professional locksmiths and DIY enthusiasts looking for a tidy, hassle-free finish.

This escutcheon is available in multiple finishes, weights, and manufacturer references. Please choose your preferred options from the selection below.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
