Specification Summary

Brand	Asec
Product type	Escutcheon & Rose

Product Description

The Asec Self Adhesive Euro Escutcheon is a quick and simple solution designed to provide a neat, professional finish to door lock installations and repairs. Perfect for tidying up around a standard euro cylinder or covering up minor damage and old cylinder holes, this escutcheon requires no screws or drilling, making installation incredibly easy.

With a self-adhesive backing, it can be securely fitted in seconds. This versatile escutcheon is available in multiple finishes, widths, and weights to suit your specific door furniture. Please choose your preferred finish, width, and weight from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
