Specification Summary

Brand	Asec
Product type	Escutcheon & Rose

Product Description

The Asec Self Adhesive UK Mortice Escutcheon is a quick and simple solution for providing a neat, professional finish to door installations and repairs. Designed to fit over a standard UK mortice keyhole, this escutcheon allows easy key entry while concealing rough cutouts or wear around the lock.

Because it features a high-quality self-adhesive backing, there is no need for screws or drilling. This makes installation exceptionally fast and clean, leaving a tidy finish without risking damage to the door face. It is ideal for both new installations and covering up blemishes from previous hardware.

This escutcheon is available in multiple finishes, weights, barcodes, and manufacturer references to suit your door furniture. Please choose your preferred options from the selection below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
