Product Description

The Asec Self Adhesive Spindle & UK Mortice Escutcheon is designed to provide a neat, professional finish to door lock installations and repairs. Measuring 175mm high by 48mm wide with 57mm centres, this escutcheon features pre-cut apertures for both a door handle spindle and a standard UK mortice key.

Thanks to its self-adhesive backing, this escutcheon is incredibly quick and easy to fit, requiring no screws or drilling. It is an ideal, tidy solution for covering up minor damage or adding a clean, modern aesthetic to your door furniture.

This product is available in Satin Chrome or Stainless Steel finishes, with weights ranging from 41g to 85g and manufacturer references AS10573 or AS10574. Please choose your preferred finish, weight, and specification from the options below.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
