Specification Summary

Brand	Asec
Product type	Panic Bolt

Product Description

The Asec Single Panic Bolt is a robust and reliable emergency exit device designed to ensure safe and rapid egress from public and commercial buildings. Fully compliant with BS EN 1125:2008 standards, this panic hardware is ideal for environments where users may not be familiar with the escape routes, providing intuitive operation under pressure.

Engineered for durability and security, it features an integrated anti-thrust device that prevents unauthorised retraction of the bolts from the outside, alongside an automatic top catch that securely holds the door in place once closed. The unit is self-handing and fully reversible, making it suitable for both left and right-handed single or double door applications. Finished in a clean silver enamel, it offers a professional look and dependable performance for

fire-exit doors.

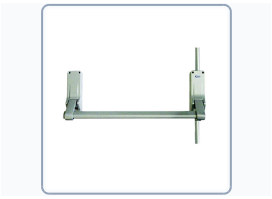

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS3100
- **Standards:** BS EN 1125:2008
- **Finish:** Silver Enamelled
- **Handing:** Reversible (Self-handing)
- **Maximum Door Height:** 2500mm
- **Maximum Door Width:** 1300mm (Maximum clear width of 1210mm)
- **Maximum Door Weight:** 200kg
- **Weight:** 4kg
- **Packaging:** Boxed

Key Features

- **Emergency Egress:** Easy push-bar operation ensures quick and effortless escape in an emergency.
- **Enhanced Security:** Integrated anti-thrust device prevents external manipulation and unauthorised retraction of the bolts.
- **Automatic Top Catch:** Automatically releases the bolt into a secure, locked position when the door closes.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
