Brand	Asec
Product type	Mortice

Product Description

The Asec Slimline Vertical Transom Housing is a high-quality, architectural solution designed to securely house electro-magnetic locks. Measuring 2 metres in length, this robust housing is ideal for vertical installations, providing a clean, professional finish that seamlessly integrates with modern door frames.

Constructed from durable aluminium, this slimline transom housing features two precise cut-outs to accommodate magnetic locks. It is designed to support a substantial holding force of up to 544kg (1200lbs), ensuring reliable security for commercial or domestic access control systems. For a hassle-free installation, the housing comes

complete with a dedicated mounting plate.

Technical Specifications

- **Length:** 2m
- **Width:** 50mm
- **Depth:** 38mm
- **Finish:** Aluminium
- **Holding Force:** 544kg / 1200lbs

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
