Specification Summary

Brand	Asec
Product type	Snap Fix

Product Description

The Asec Snap Fit Cranked Cam Camlock is a high-quality replacement lock specifically designed to suit Link lockers. Featuring a convenient snap-fit design, this camlock is secured quickly and easily using the included horseshoe clip, making installation or replacement straightforward without the need for complex tools.

Constructed with a durable chrome-plated finish, this lock is built to withstand daily use in busy environments. It features a reliable 5-pin mechanism and a cranked cam to ensure secure locking. The lock operates with a clockwise movement and is supplied keyed to differ, complete with two keys. It is an ideal, cost-effective solution for restoring security to Link lockers in schools, offices, and leisure facilities.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
