Specification Summary

Brand	Asec
Product type	Snap Fix

Product Description

The Asec Square KD Snap Fit Camlock 180º is a highly reliable and easy-to-install locking solution specifically designed for metal cupboards, lockers, and cabinets. Featuring a distinct square-faced design, this camlock is ideal for both commercial and domestic applications where secure, straightforward cabinet locking is required.

With its snap-fit design, installation is quick and hassle-free, securing firmly into place using the supplied spring steel locking plate. The lock operates with a smooth 180-degree clockwise movement and is keyed to differ (KD), offering up to 2,000 unique key differs for enhanced security. It features a robust 5-pin cylinder mechanism and is supplied complete with two keys. The durable chrome-plated finish ensures long-lasting performance and a clean, professional look on any metal furniture.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
