Product Description

The Asec Square Nut Fix Camlock 180° is an easy-to-install locking solution designed specifically for securing metal and timber cupboards, lockers, and cabinets. Featuring a distinct square face, this robust camlock offers a smooth 180° clockwise movement to ensure reliable operation.

This versatile camlock is available in multiple body lengths (16mm or 20mm) and keying options, including Keyed to Differ (where each lock has its own unique key) and Keyed Alike (where multiple locks operate using the same key). Please choose your preferred body length, keying option, and manufacturer reference from the options below to suit your specific installation requirements.

Each lock is supplied complete with two keys (92 Series) and a standard 41.5mm cam, providing a complete, ready-to-fit upgrade for office furniture, school lockers, or home cupboards.

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
