Specification Summary

Brand	Asec
Product type	Mortice

Product Description

The Asec Standard Aluminium Transom Housing is a robust, 2-metre architectural housing designed specifically for vertical fitting in commercial and residential access control installations. Manufactured from high-quality, lightweight aluminium, this durable housing provides a clean, professional finish for securing doors while neatly concealing wiring and hardware.

This unit features two pre-machined cut-outs designed to accommodate standard mortice magnets, such as the Asec A10020M Standard Monitored Mortice Magnet. It is supplied complete with a full-length mounting plate to

ensure a secure, stable, and straightforward installation.

Please note that this transom housing is supplied without magnets, allowing you to select and install the exact magnetic locks required for your specific access control system.

Technical Specifications

- **Brand:** Asec
- **Manufacturer Reference:** AS12373
- **Length:** 2m
- **Fitting:** Vertical
- **Material:** Aluminium
- **Number of Cut-outs:** 2

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
