Specification Summary

Brand	Asec
Product type	Butt

Product Description

The Asec Steel Butt Hinges are a reliable and cost-effective choice for hanging internal doors. Supplied as a convenient pack of two (one pair), these hinges are designed to offer smooth operation and long-lasting durability.

They feature countersunk screw holes, ensuring that once installed, the screws sit completely flush with the hinge plate for a neat, professional, and snag-free finish.

These steel hinges are available in a choice of finishes, including Polished Chrome and Electro Brass, to seamlessly match your existing door furniture and interior decor. They also come in multiple sizes, with lengths of 75mm and 10cm available to suit different door requirements. Please select your preferred finish, length, and weight from the options below to find the perfect fit for your project.

Technical Specifications

Brand Profile

Asec

ASEC is a **trade-focused security hardware brand** built around the “everyday kit” locksmiths and installers reach for, with a big emphasis on **breadth, availability, and value** rather than boutique-only spec pieces. The brand was **established in 2003** and was created specifically to **support independent retailers and security professionals** with products that *“would never become available through the large multiple retailers.”*

Where ASEC gets especially interesting (and why it tends to become a “default stock brand”) is the **scale of the range**:

- ASEC positions itself as having a portfolio of **2,000+ individual products**, described as one of the **largest ranges under a single security brand name** in the industry.
- Coverage is intentionally broad across the core trade categories: **Access Control, Architectural Hardware, Key Cutting, Locking Products, UPVC, Tools & Accessories**.

ASEC is **exclusive to Aldridge Security** (whom we distribute) in the UK trade ecosystem (Aldridge explicitly calls itself the **exclusive distributor of ASEC Security Products worldwide**). That exclusivity is a big part of the brand’s identity: it keeps the range aimed at the trade channel rather than getting diluted into mass retail.
